AMERICAN SILVER.

NUMBERED ACCORDING TO HASELTINE'S TYPE TABLE

105 1868. Brilliant Proof Set, rare.

106 1868. " " " rare.

107 1873. " " " Trade Dollar.

108 1874. " " "

109 1875. " " " first year of the 20 ct. piece.

110 1795. Dollar, No 14. Fillet Head, fair.

111 1797. Dollar, six stars facing, fine, very rare in fine condition. and ten times rarer than 1797 with seven stars facing.

112 1800. Dollar, No. 14, very good.

113 1802. " No. 6, good.

114 1803. " very fine.

115 1848. " fine, getting quite scarce.

116 1855. " *fair*, rare.

117 1866. " very fine, scarce.

118 1880. Trade Dollar, brilliant proof, rare.

119 1880. Standard Dollar, brilliant proof.

120 1794. Half Dollar No 2, good, this variety is excessively rare.

121 1801. Half Dollar, not in Haseltine, will therefore call it No 3, obverse like No 1, rev. 13 arrows in eagle's claw, first A in "America" *just escapes* touching the third and fourth feathers in eagle's wing, point of stars does not touch the eagle's beak; there are also several small elevations in the field between the wing and points of arrows. If Mr. Haseltine has not discovered this variety in his researches, it is safe to say that this is *excessively rare*, and perhaps unique. The best struck impression I have ever seen of this date, nearly always weak, the hair barely touched, rev. equally as fine, not much circulated, *extremely rare in this condition*, say nothing of the *excessively rare variety*.

122 1795. Half Dollar, obv. same as No. 5, rev. wreath has 17 berries, 9 on left, 8 on right, the E does not show under A in States, not in Haseltine, barely circulated, *extremely rare*.
